Section 1: Identification

Product identifier

Product Name
- Zoecon Altosid Liquid Larvicide Concentrate

Synonyms
- 37240E; EPA Reg. No.: 2724-446; Strike Professional Midge Control; Zoecon RF-437 Mosquito Growth Regulator SR-20

Product Description
- White, opaque liquid.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use
- Insect growth regulator

Restrictions on use
- Keep out of reach of children. Avoid contact with eyes, skin or clothing.

Details of the supplier of the safety data sheet

Manufacturer
- Wellmark International
  1501 E. Woodfield Road, Suite 200W
  Schaumburg, IL 60173
  United States
  www.centralmosquitocontrol.com

Emergency telephone number

Manufacturer (Transportation)
- 1-800-424-9300 - CHEMTREC

Manufacturer (Transportation) - 1-703-527-3887 - CHEMTREC - Outside North America - Collect Calls Accepted

Manufacturer
- 1-888-914-2082

Section 2: Hazard Identification

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012
- Not classified; does not meet hazard criteria.

Label elements

OSHA HCS 2012

Hazard statements
- No label element(s) required

Other hazards

OSHA HCS 2012
- This product is not considered hazardous under the U.S. OSHA 29 CFR 1910.1200 Hazard Communication Standard.
Section 3 - Composition/Information on Ingredients

Substances

- Material does not meet the criteria of a substance.

Mixtures

Section 4: First-Aid Measures

Description of first aid measures

Inhalation

- IF INHALED: Move person to fresh air. If person is not breathing, call 911 or get medical help then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or seek medical advice.

Skin

- IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Eye

- IF IN EYES: Hold eye open and rinse gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Ingestion

- IF SWALLOWED: Call a POISON CONTROL center or doctor if you feel unwell. Rinse mouth. Do NOT induce vomiting.

Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

Indication of any immediate medical attention and special treatment needed

Notes to Physician

- Treat symptomatically and supportively.

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media

- SMALL FIRES: Dry chemical, CO2, water spray or regular foam.

Unsuitable Extinguishing Media

- Avoid heavy hose streams.

Firefighting Procedures

- Move containers from fire area if you can do it without risk. Use extinguishing agent suitable for type of surrounding fire. Do not allow fire fighting water to escape into waterways or sewers.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards

- No data available.

Hazardous Combustion Products

- No data available.

Advice for firefighters
• Wear positive pressure self-contained breathing apparatus (SCBA).

### Section 6 - Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**

**Personal Precautions**
- Use appropriate Personal Protective Equipment (PPE). Avoid contact with skin, eyes, and clothing. Ventilate the area.

**Emergency Procedures**
- Do not allow runoff into water, storm drains or drainage ditches.

**Environmental precautions**
- Contain and prevent from release into any waterway, sewer or drain.

**Methods and material for containment and cleaning up**

**Containment/Clean-up Measures**
- Absorb spills with an inert material, clay granules or other inert absorbent material and put in container for disposal.

### Section 7 - Handling and Storage

**Precautions for safe handling**

**Handling**
- Avoid contact with skin, eyes, and clothing. Wash hands thoroughly with soap and water after handling. Wear appropriate personal protective equipment, avoid direct contact.

**Conditions for safe storage, including any incompatibilities**

**Storage**
- Store in a cool/low-temperature, well-ventilated, dry place. Keep container tightly closed.

**Incompatible Materials or Ignition Sources**
- Separate pesticides during storage to prevent cross-contamination of other pesticides, fertilizers, food and feed.

**Other Information**
- See product label for additional information.

### Section 8 - Exposure Controls PERSONAL PROTECTION

**Control parameters**

**Exposure controls**

**Engineering Measures/Controls**
- Use adequate ventilation to remove vapors (fumes, dust etc)

**Personal Protective Equipment**
- If handling without sufficient ventilation, wear a NIOSH approved respirator with organic cartridge.

**Respiratory**
- Wear chemical splash safety goggles.

**Eye/face**
- Wear chemical resistant gloves.

**Hands**
- If prolonged exposure is anticipated, it is recommended for handlers to wear appropriate clothing to prevent skin contact.

**Skin/Body**
- Do not get in eyes or on skin or clothing. Handle in accordance with good industrial hygiene and safety practice.

**General Industrial hygiene Considerations**
- Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways.
Section 9 - Physical and Chemical Properties

Section 10: Stability and Reactivity

Reactivity

- Non-reactive under normal handling and storage conditions.

Chemical stability

- Stable under normal temperatures and pressures.

Possibility of hazardous reactions

- Hazardous polymerization will not occur.

Conditions to avoid

- No data available.

Incompatible materials

- No data available.

Hazardous decomposition products

- No data available.

Potential Health Effects

Inhalation

- **Acute (Immediate)**: Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**: No data available.

Skin

- **Acute (Immediate)**: Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**: No data available.

Eye

- **Acute (Immediate)**: Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**: No data available.

Ingestion

- **Acute (Immediate)**: Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**: No data available

Carcinogenic Effects

- No component of this product present at 0.1% or greater is listed by IARC, OSHA or NTP.

Section 12 - Ecological Information

Toxicity

<table>

</tr>
</thead>
<tbody>
<tr>
<td>(s)-Methoprene (20%)</td>
<td>65733-16-6</td>
</tr>
</tbody>
</table>
**Persistence and degradability**
- Methoprene degrades rapidly in sunlight, both in water and on inert surfaces. The pesticide also is metabolized rapidly in soil and does not leach. Thus, it should not persist in soil or contaminate ground water.

**Bioaccumulative potential**
- No data available

**Mobility in Soil**
- (s)-Methoprene: 10-14 days, rapidly hydrolyzed in soil.

**Other adverse effects**
- No data available.

**Ecological Fate**
- Not hydrolyzed up to 30 days.

**Other Information**
- No data available.

### Section 13 - Disposal Considerations

**Waste treatment methods**

**Product waste**
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. Do not empty into drains.

**Packaging waste**
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. See product label for disposal instructions.

### Section 14 - Transport Information

</tr>
</tbody>
</table>

**Special precautions for user**
- None specified.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**
- No data available

**Other information**
- IMO/IMDG - No data available
- IATA/ICAO - No data available

**Key to abbreviations**
- N/A = Not applicable.

### Section 15 - Regulatory Information

**Safety, health and environmental regulations/legislation specific for the substance or mixture**

**SARA Hazard Classifications**
- Not regulated
FIFRA – Pesticide Labeling

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

CAUTION

Precautionary Statements - KEEP OUT OF THE REACH OF CHILDREN.

Hazards to Humans and Domestic Animals

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS-CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

First Aid - Call a poison control center or doctor for treatment advice. If in eyes • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If on skin or clothing • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.

Environmental Hazards - Do not contaminate water when disposing of rinsate or equipment washwaters.
