NATURAL® G30 WSP

Mosquito Larvicide / Extended Release Granules in a Water Soluble Pouch.
To be used in governmental mosquito control programs, by professional pest control operators, or in other mosquito or midge control operations.

Active Ingredient (dry weight basis):
Spinosad (a mixture of spinosyn A and spinosyn D) ........................................ 2.5 %
Other Ingredients ....................................................................................... 97.5 %
Total ....................................................................................................... 100.0 %

SPINOSAD GROUP 5 INSECTICIDE

Keep Out of Reach of Children
CAUTION

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If in eyes:
• Hold eye open and rinse slowly and gently with warm water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
• Call a poison control center or doctor for treatment advice.

First Aid

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic organisms. Non-target aquatic invertebrates may be killed in waters where this pesticide is used. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying. Pouches are water soluble. Do not handle with wet hands or gloves. Do not remove pouches from the container except for immediate use. Protect unused pouches from moisture by resealing container during storage.

NATURAL® G30 WSP is an insecticide designed to kill mosquito and midge larvae in listed breeding habitats. Spinsad, its active ingredient, is biologically derived from the fermentation of Saccharopolyspora spinosa, a naturally occurring soil organism. NATURAL® G30 WSP releases effective levels of spinosad for up to 30 days under typical environmental conditions.

USE PRECAUTIONS
Integrated Pest Management (IPM) Programs
NATURAL® G30 WSP is intended to kill mosquito and midge larvae. Mosquitoes are best controlled when an IPM program is followed. Larval control efforts should be managed through habitat mapping, active adult and larval surveillance, and integrated with other control strategies such as source reduction, public education programs, harborage or barrier adult mosquito control applications, and targeted adulticide applications.

Insecticide Resistance Management (IRM)
NATURAL® G30 WSP contains a Group 5 insecticide. Insect biotypes with acquired resistance to Group 5 insecticides may eventually dominate the insect population if appropriate resistance management strategies are not followed. Currently, only spinetoram and spinosad active ingredients are classified as Group 5 insecticides. Resistance to other insecticide groups is not likely to impact the effectiveness of this product. Spinosad may be used in rotation with all other labeled products in a comprehensive IPM and IRM program.

APPLICATION
Apply NATURAL® G30 WSP prior to flooding as a pre-hatch application to listed areas that breed mosquitoes, or at any stage of larval development after flooding in listed sites.

APPLICATION SITES
NATURAL® G30 WSP is designed to kill mosquitoes in small bodies of water. Application sites include:
• Storm water drainage areas, sewers and catch basins, woodland pools, snow pools, roadside ditches, retention ponds, freshwater ditches, spoil spoils, tire tracks, rock holes, pot holes and similar areas subject to flooding
• Natural and manmade aquatic sites, fish ponds, ornamental ponds and fountains, other artificial water-holding containers, flooded crypts, transformer vaults, abandoned swimming pools, construction and other natural or manmade depressions.
• stream eddies, creek edges, detention ponds. Freshwater swamps and marshes including mixed hardwood swamps, cattail marsh, common reed wetland, water hyacinth ponds, and similar fresh-water areas with emergent vegetation.
• Brackish water swamps and marshes, intertidal areas.
• Sewage effluent, sewers, sewage lagoons, treatment plants, oxidation ponds, septic ditches and tanks, animal waste lagoons and settling ponds, livestock lagoons, wastewater impoundments associated with feedlot and vegetable processing and similar areas.
• Also for use in rice fields (for application only during the interval between harvest and preparation of the field for the next cropping cycle) and in standing water within agricultural areas where mosquito breeding occurs: pastures, hay fields, rangeland, orchards, vineyards, and citrus groves. Do not apply to waters intended for irrigation.

Restriction: Do not apply to natural or artificial containers of water intended for consumption by people, animals, or livestock.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a cool dry place. Reaseal opened containers immediately after use. Store in original container only.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Outer Cardboard Container: Offer for recycling if available or dispose of in a sanitary landfill, or by incineration or by other procedures approved by State and local authorities.

Poly-Foil Bag Container: Offer for recycling if available or dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

WARRANTY: To the extent consistent with applicable law, CLARKE MOSQUITO CONTROL PRODUCTS, INC. makes no warranty, express or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. To the extent consistent with applicable law, Buyer assumes all risk of use/handling of this material when use and/or handling is contrary to label instructions.
